

MUHAMMAD HASSAN

Full Stack Engineer | React.js Developer | AI SaaS Builder

Karachi, Pakistan | +92-335-9554095 | hassaankhaliq45@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with hands-on experience building production-grade web applications and AI-powered SaaS products using React.js, Node.js, Express.js, and MySQL. Proven ability to develop responsive UIs, design RESTful APIs, implement JWT-based authentication, and integrate third-party APIs. Founded and launched **Veloxa AI** — a multi-tenant AI chatbot SaaS platform with real global payments. Experienced in hospital ERP systems and field service management platforms. Strong foundation in Agile development and performance optimization.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control
AI / SaaS:	Google Gemini AI, Multi-Tenant Architecture, Webhook Integrations, Payment Gateway (Lemon Squeezy)
Databases:	MySQL, MariaDB, MongoDB, Firebase, Supabase
Tools:	Git, GitHub, Figma, Vercel, Vite, npm, VS Code
Other:	Web Performance Optimization, SEO Basics, Mobile-First Design, API Integration

WORK EXPERIENCE

Junior Web Developer **POB Eye Hospital**

2025 – Present

- Developed and maintained dynamic web applications integrated with ERPNext APIs for real-time data management in a hospital ERP environment, enhancing operational efficiency and data accuracy.
- Designed and implemented RESTful APIs using Node.js and Express.js, ensuring seamless communication between frontend and backend services.
- Optimized MySQL database queries, resulting in improved system performance and faster response times.
- Built reusable React.js components and maintained consistent UI/UX across multiple modules.

Freelance Web Developer **Self-Employed**

2023 – Present

- Delivered full-stack web projects for clients including e-commerce websites, business landing pages, and book store applications.
- Packaged and listed a Field Service Management Platform (FieldOps) as a Fiverr freelance gig, demonstrating full project lifecycle ownership.

Freelance Tutor **Self-Employed**

2022 – Present

- Conducted interactive coding sessions on fundamental programming concepts, achieving an average 25% grade improvement among students.
- Created customized learning plans tailored to individual student needs and learning styles.

PROJECTS

Veloxa AI – AI-Powered Business Automation Widget | *Node.js, Express.js, React.js, MySQL, Google Gemini AI, JWT, Lemon Squeezy* [Live Demo](#) ■

- Built a multi-tenant SaaS AI chatbot widget that handles lead capture, appointment booking, rescheduling, and cancellations 24/7 for any business.
- Businesses sign up and receive a unique API key with a script tag — deployable to any website or app in under 60 seconds with zero configuration.

- Integrated Google Gemini AI for natural conversation, with stateful session management across serverless requests and structured intent parsing for booking flows.
- Implemented Lemon Squeezy as Merchant of Record for global payments, automatic plan activation via webhooks, and multi-tenant isolation with per-client widget customization.

FieldOps – Field Service Management Platform | *React.js, Node.js, Express.js, MySQL, JWT* [Live Demo](#) ■

- Built a full-stack FSM platform with JWT-based authentication, role-based access control (Admin/Technician), and job order management.
- Implemented real-time job tracking, technician assignment, and RESTful APIs using Express.js and MySQL.
- Deployed frontend on Vercel and backend on Aiven cloud MySQL database.

Book Store App | *React.js, Tailwind CSS* [Live Demo](#) ■

- Built an interactive book listing application with search/filter functionality and clean component-based architecture.

CozWeb – Business Website | *React.js, Tailwind CSS* [Live Demo](#) ■

- Designed and developed a modern business website with responsive layout, animations, and optimized performance.

EDUCATION

Bachelor of Science in Economics [University of Karachi](#)

2022 – 2026

Successfully Completed

- Focused on software engineering, data structures, algorithms, and modern web technologies.

Modern Web & App Development [Saylani Mass IT Training \(SMIT\)](#)

2024 – 2025

- Completed intensive full-stack web development program with hands-on experience in React.js, Node.js, and modern UI frameworks.
- Built multiple real-world projects covering frontend, backend, and database integration.

ACHIEVEMENTS

- Secured 3rd Place in Web Development Competition – Built a complete food website template in 1 hour using only HTML & CSS.
- Recognized for Best UI Design in multiple frontend projects.
- Published FieldOps as a Fiverr freelance gig, demonstrating end-to-end project ownership and client-ready delivery.
- Founded and launched Veloxa AI — a live SaaS product with real global payments via Lemon Squeezy, serving businesses with AI-powered automation.
