MUHAMMAD HASSAN

Full Stack Developer | Frontend Developer (React.js) | AI SaaS Builder

Karachi, Pakistan | +92-335-9554095 | hassaankhaliq45@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on production experience building responsive web apps and AI-powered SaaS platforms using React.js, Node.js, Express.js, and MySQL. Skilled in RESTful API design, JWT authentication, and third-party API integration. Founded and launched Veloxa AI, a live multi-tenant SaaS product with production-grade global payment infrastructure. Experienced in hospital ERP systems, with a strong foundation in Agile development and performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control (RBAC), Webhook Integration

AI / SaaS: Google Gemini AI, Multi-Tenant Architecture, Lemon Squeezy Payments, Stateful Session Management

Databases & Tools: MySQL, MariaDB, MongoDB, Firebase, Supabase, Git, GitHub, Vite, npm, Agile Development

WORK EXPERIENCE

Junior Web Developer – *POB Eye Hospital* 2025 – 2026

- Developed and maintained dynamic web applications integrated with ERPNext APIs for real-time hospital data management, designing RESTful APIs with Node.js/Express.js for seamless frontend-backend communication.
- Optimized MySQL database queries and built reusable React.js components, improving performance and maintaining consistent UI/UX across ERP modules.

Independent Full-Stack Developer & Founder – *Self-Employed* 2023 – Present

- Founded and independently built Veloxa AI, a live multi-tenant SaaS platform, and FieldOps, a Field Service Management Platform listed as a product on Fiverr and Sikaty — owning architecture, development, and deployment end-to-end.
- Handled the complete technical lifecycle for both products independently: system design, database architecture, API development, and cloud deployment.

PROJECTS

Veloxa AI – AI-Powered Business Automation Widget – *React.js, Node.js, Express.js, MySQL, Gemini AI, JWT* | Live Demo

- Built a multi-tenant SaaS AI chatbot for lead capture, appointment booking, rescheduling, and cancellations 24/7 — deployable via script tag in under 60 seconds, zero configuration.
- Integrated Google Gemini AI for natural conversation, with stateful session management across serverless requests and structured intent parsing for booking flows.
- Implemented Lemon Squeezy as Merchant of Record for global payments, automated plan activation via webhooks, and multi-tenant isolation with per-client customization.

FieldOps – Field Service Management Platform – *React.js, Node.js, Express.js, MySQL, JWT* | Live Demo

- Built a full-stack FSM platform with JWT-based authentication, role-based access control (Admin/Technician), and job order management.
- Implemented real-time job tracking and technician assignment with Express.js/MySQL; deployed frontend on Vercel and backend on Aiven cloud MySQL.

Other Projects – *React.js, Tailwind CSS*

- Book Store App (search/filter, component-based) and CozWeb business website (responsive, animated, performance-optimized).

EDUCATION

Modern Web & App Development – Full-Stack Training – *Saylani Mass IT Training (SMIT)* 2024 – 2025

- Intensive hands-on program covering React.js, Node.js, Express.js, and MySQL; built multiple real-world projects spanning frontend, backend, and database integration.

Bachelor of Science in Economics – *University of Karachi* 2022 – 2026

ACHIEVEMENTS

- Founded and launched Veloxa AI, a live SaaS product with production-grade global payment infrastructure via Lemon Squeezy, and published FieldOps as a Fiverr listing — both demonstrating end-to-end product ownership.
- Secured 3rd place in a Web Development Competition and recognized for Best UI Design across multiple projects.
